CLIMATE RISK INDEX (GERMANWATCH 2018)

A background image of a dense forest shrouded in thick fog or mist. The trees are dark green and their details are softened by the atmospheric haze. The overall tone is somber and mysterious.

CLIMATE EMERGENCY

AND FAIRTRADE

An aerial photograph of a vast, dark blue ocean. The surface is dotted with numerous icebergs of various sizes, some appearing as small white specks and others as larger, more complex shapes. A bright sun is positioned in the upper center of the frame, creating a strong, shimmering reflection that stretches across the water towards the horizon. The sky is a pale, hazy blue. The overall scene conveys a sense of isolation and the impact of climate change on the environment.

CLIMATE EMERGENCY

AND FAIRTRADE

A low-angle photograph looking up at a dense tropical forest. Large, vibrant green banana leaves dominate the foreground and midground, their long, pointed shapes reaching towards the sky. Sunlight filters through the canopy, creating a bright, hazy atmosphere with visible lens flare and dappled light on the leaves. The overall mood is warm and lush.
